THE PUBLIC SERVICE COMMISSION OF

SOUTH CAROLINA

DOCKET NO. 2001-339-C - ORDER NO. 2001-1055

NOVEMBER 27, 2001

IN RE: Application of Intrado Communications, Inc.)	ORDER GRANTING
for a Certificate of Public Convenience and)	CERTIFICATE FOR
Necessity to Provide Local Exchange and)	LOCAL AND
Interexchange Telecommunications Services)	INTEREXCHANGE
and for Alternative and Flexible Regulation,)	AUTHORITY, FOR
and for Approval to Transfer Certain Assets)	ALTERNATIVE AND
from SCC Communications to Intrado)	FLEXIBLE
Communications.)	REGULATION, AND
)	FOR TRANSFER OF
)	ASSETS

This matter comes before the Public Service Commission of South Carolina (the Commission) by way of the Application (Joint Petition) of Intrado Communications, Inc. ("Intrado" or the "Company") and SCC Communications Corp. (SCC) for: (1) authority to provide facilities-based and resold local exchange and intrastate interexchange telecommunications services within the State of South Carolina and (2) to transfer certain assets from SCC Communications to Intrado Communications (formerly SCC Communications Group Corp.). The Company requests that the Commission regulate its local telecommunications services in accordance with the principles and procedures established for flexible regulation in Order No. 98-165 in Docket No. 97-467-C. In addition, the Company requests that the Commission regulate its business services offerings identical to that granted to AT&T Communications in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C. The Application was filed pursuant to S.C. Code Ann. Section 58-9-280 (Supp. 2000), and the Rules and Regulations of the Commission.

By letter, the Commission's Executive Director instructed the Applicant to publish, one time, a prepared Notice of Filing in newspapers of general circulation in the areas affected by the Application. The purpose of the Notice of Filing was to inform interested parties of the manner and time in which to file the appropriate pleadings for participation in the proceedings. The Applicant complied with this instruction and provided the Commission with proof of publication of the Notice of Filing. A Petition to Intervene was received from the South Carolina Telephone Coalition ("SCTC") on September 14, 2001.

On October 1, 2001, counsel for SCTC filed with the Commission an Amended Stipulation in which the Applicant stipulated that it would seek authority in non-rural local exchange ("LEC") service areas of South Carolina and that it would not provide any local service to any customer located in a rural incumbent's service area, unless and until Intrado provided written notice of its intent prior to the date of the intended service. The Company also stipulated that it was not asking the Commission to make a finding at this time regarding whether competition is in the public interest for rural areas. Intrado agreed to abide by all State and Federal laws and to participate to the extent that it may be required to do so by the Commission in support of universally available telephone service at affordable rates. The SCTC withdrew its opposition to the granting of a statewide Certificate of Public Convenience and Necessity to the Company provided the conditions contained in the Stipulation are met. The Stipulation is approved and attached as Order Exhibit 1.

A hearing was commenced on October 31, 2001, at 10:30 a.m. in the Commission's Hearing Room. The Honorable William Saunders, Chairman, presided. Intrado was represented by Bonnie D. Shealy, Esquire. Gary A. Klug, Director of State Regulatory Affairs for Intrado, appeared and testified on behalf of the Company. Adelaide D. Kline, Staff Counsel, represented the Commission Staff.

Intrado seeks a certificate of public convenience and necessity to provide resold and facilities-based local exchange telecommunications and intrastate interexchange services within the State of South Carolina and for alternative and flexible regulation. The Company additionally seeks to transfer to Intrado, the Certificate of Public Convenience and Necessity to provide local exchange service and intrastate interexchange services in South Carolina that was granted to SCC Communications Corp. (SCC) by this Commission in Docket No. 2000-600-C, Order No. 2001-332 issued April 16, 2001. Mr. Klug explained that Intrado is a newly formed Delaware corporation. Intrado is a wholly-owned, direct subsidiary of Intrado Inc. (f/k/a SCC). He testified that in order to promote corporate and operational efficiencies, on June 4, 2001, SCC Communications Corp. changed its name to Intrado Inc. and separately formed Intrado Communications Inc. Intrado (as SCC) was incorporated in the State of Delaware on September 17, 1993. SCC was granted authority to transact business in South Carolina on June 2, 1997. Mr. Klug further testified that subsequent to the certification of SCC in South Carolina, Intrado completed the purchase of Lucent Public Safety Systems and did an internal corporate restructuring. He said the Company remains managerially the same and financially better than when it was first certificated by this Commission. Mr. Klug

stated that Intrado (f/k/a SCC) does not currently have any customers in South Carolina. As Director of State Regulatory Affairs for Intrado, Mr. Klug testified that his current responsibilities/duties at Intrado include ensuring compliance with rules and regulations of federal and state agencies, including management of compliance filings with state agencies. The record reveals he evaluates federal and state regulations and sets regulatory policy and strategic direction for the Company. He also acts as a subject matter expert and participates in local, state and national public safety and 911 forums.

Additionally, the Application requested this Commission to grant the Company authority to transfer to ICI, SCC's Certificate to Provide Competitive Local Exchange Services and Intrastate Interexchange Services in the State of South Carolina. SCC changed its name to Intrado Inc. and desires to transfer its existing state certifications to its wholly-owned subsidiary, Intrado Communications Inc. Intrado Communications Inc. requested it be granted the identical certification that was previously granted to its parent company, Intrado Inc. (f/k/a SCC). The record further reveals that ICI is authorized to provide telecommunications services in the states of Alabama, Colorado, Kansas, Connecticut, Kentucky and Idaho. ICI is in the process of obtaining authority to provide telecommunications services throughout the United States. ICI's parent company, Intrado, currently is authorized to provide telecommunications services in sixteen states. Mr. Klug testified that Intrado is currently in the process of seeking regulatory approval to transfer each of these authorizations to ICI and most recently accomplished that transfer in the states of Montana, North Dakota, Indiana and the District of Columbia. Mr. Klug offered that upon grant of this Application, ICI and Intrado (f/k/a SCC) will

request that the Commission withdraw the certification of Intrado Inc. (f/k/a SCC) (the parent company).

Specifically, Mr. Klug testified that ICI requests authority to aggregate and transport, via switching, emergency calls with its 9-1-1 SafetyNet services throughout the State of South Carolina. 9-1-1 Safety Net services are telecommunications services that facilitate, enhance, and advance the provision of emergency services throughout the United States for end users of wireline and wireless carriers, telematics services customers (e.g., On Star), and other business and residential end users such as Private Branch Exchanges ("PBX") customers. He said ICI aggregates and transports traditional and nontraditional emergency call traffic to appropriate selective routing tandems for delivery to the appropriate Public Safety Answering Point ("PSAP"). Mr. Klug further stated that aggregating emergency call traffic reduces the number of facilities that must interconnect with the independent local exchange carriers' (ILEC) selective routing tandems, resulting in a more efficient use of the telecommunications network. He said such aggregation also reduces the ILECs' administrative abilities. Mr. Klug explained that rather than coordinate and interconnect with multiple service providers individually, the ILEC need only coordinate and interconnect with ICI in order to handle the emergency call traffic from multiple service providers. 9-1-1 Safety Net services include LEC Emergency Call Support service, Wireless Service Provider ("WSP") Emergency Call Support service and Telematics Emergency Call Support ("TECS") service. These services are provided over the Emergency Communications Network ("ECN") which is a fully redundant, physically diverse telecommunications network designed to accept

traditional and non-traditional emergency calls, determine the appropriate PSAP, and forward the calls to the PSAP via the traditional 9-1-1 infrastructure. Mr. Klug testified that Intrado's service offerings will be provided through the use of purchased and leased assets, facilities and services obtained from exchange and interexchange providers, interconnection arrangements, and from access to unbundled network elements and collation with the incumbent local exchange providers. He said specifically, Intrado will interconnect its network to incumbent 9-1-1 selective routing tandems. He said Intrado does not intend, at this time, to install or construct facilities within the State of South Carolina to deliver Intrado's proposed services, other than those facilities that may be necessary to interconnect Intrado's network with incumbent 9-1-1 selective routing tandems.

Mr. Klug testified that the senior management of Intrado has considerable experience in public safety and in the telecommunications industry. He stated that ICI will rely on this same management team to provide the proposed services. He said Intrado currently employs over 600 highly-qualified individuals who represent some of the sharpest and most proactive minds in the telecommunications industry. He said the management team has been gathered from the public safety software development and telecommunications industries. He further said Intrado's team of professionals is at the forefront of industry debate and is uniquely qualified to formulate creative, reliable public safety communications solutions.

Regarding the Company's managerial personnel, George Heinrichs is President and Chief Executive Officer, a position he has held since February 1995. Mr. Heinrichs

has worked in the public safety field for over ten years. The record also reveals that Stephen Meer is Vice President and Chief Technology Officer. Mr. Meer has over twenty years of telecommunications experience. He is also one of the original founders and has been a principal in Intrado for seventeen years. Michael Dingman, Jr. is Chief Financial Officer. Mr. Dingman has over seventeen years of diversified financial management experience. Mr. Klug testified that some of the other principal management personnel are Larry Jennings, Sr. Vice President Business Operations, Ron Mathis, Director Network Operations, Timothy J. Jenkins, Vice President/General Manager ILEC Business Unit, and Mark R. Scott, Vice President/General Manager CLEC Business Unit. Mr. Klug has an extensive background in the telecommunications and regulatory fields, having held a variety of positions with several telecommunications providers and the Colorado Public Utilities Commission.

Regarding the Company's financial ability to offer telecommunications services in South Carolina, Mr. Klug testified that ICI will rely on its parent company, Intrado, for financial support to provide the proposed services telecommunications services in South Carolina. Mr. Klug further testified that Intrado has access to adequate financing and capital and is not relying on any third party to support its financial ability to fund its operations. According to Mr. Klug, Intrado maintains the same financial commitment as it affirmed in its initial certification and Mr. Klug testified that Intrado will continue to deliver financial resources for the services it plans to offer in South Carolina. He further said that Intrado will bill its customers directly. He said Intrado's customer service representatives assist customers with a broad range of service matters, including billing,

maintenance and repair issues. Customer service representatives are available to assist customers twenty-four hours per day, seven days per week. Customers may contact customer service at the toll-free telephone number (877) 856-7504. Mr. Klug further said that such complaints would be received and directed to him, after which they will be directed to the appropriate technical personnel for resolution. Mr. Klug offered that he will be the regulatory, financial and customer service contact person for Intrado.

According to Mr. Klug, Intrado has never had authority denied in any state where it has applied for authority nor has the Company had authority revoked in any state where it has been granted authority. Additionally, he said that Intrado has never been the subject of an investigation, fined or sanctioned by a state or federal regulatory body. According to the testimony, Intrado has not marketed its services in South Carolina prior to receiving certification. Mr. Klug testified that the Company has not received revenues from the completion of intrastate calls in South Carolina prior to receiving certification. Additionally, he said that Klug has never been the subject of an investigation, fined or sanctioned by a state or federal regulatory body. Finally, Mr. Klug testified Intrado will abide by all the Commission's rules, regulations and Orders upon the Company receiving certification to provide intrastate interexchange telecommunications services in South Carolina. The Company agreed to provide the Commission with the final Tariff, a copy of its Bill Form, according to 26 S. C. Code Ann. Regs. 103-612.2.2 and 103-622.1 (1976).

Intrado requested that all of its business service offerings be regulated pursuant to the procedures described and set out in Order Nos. 95-1734 and 96-55 in Docket No. 95-

661-C. It is Intrado's intent by this request to have its business services regulated in the same manner as this Commission has permitted for AT&T Communications of the Southern States. Further, Intrado requested that the Commission regulate its local services in the same relaxed fashion authorized in Order 98-165, Docket 97-467-C and extended to other similarly situated carriers. This flexible regulatory treatment requires that Intrado file maximum rates for its service offerings. Those local tariff filings would be presumed valid once they are filed subject to the Commission's right to investigate the filing within thirty days.

After full consideration of the applicable law, the Company's Application, and the evidence presented at the hearing, the Commission hereby issues its findings of fact and conclusions of law:

FINDINGS OF FACT

1. Intrado is organized as a corporation under the laws of the State of Delaware and is authorized to do business as a foreign corporation in the State of South Carolina by the Secretary of State.
2. Intrado is a provider of local exchange and interexchange telecommunications services and wishes to provide its services in South Carolina.
3. Intrado has the managerial, technical, and financial resources to provide the services as described in its Application.
4. The Commission finds that Intrado's "provision of service will not adversely impact the availability of affordable local exchange service." S.C. Code Ann. Section 58-9-280 (B)(3) (Supp. 2000).

5. The Commission finds that Intrado will support universally available telephone service at affordable rates.

6. The Commission finds that Intrado will provide services which will meet the service standards of the Commission.

7. The Commission finds that the provision of local exchange service by Intrado “does not otherwise adversely impact the public interest.” S.C. Code Ann. Section 58-9-280 (B)(5) (Supp. 2000).

8. On April 16, 2001, the Commission granted SCC authority to provide competitive resold and facilities-based intrastate local exchange services only to customers located in the non-rural areas of South Carolina (Commission Order No. 2001-332, Docket No. 20000-600-C).

9. On June 4, 2001, SCC Communications Corp. changed its name to Intrado Inc. and separately formed a direct wholly-owned subsidiary, Intrado Communications Inc.

CONCLUSIONS OF LAW

1. Based on the above findings of fact, the Commission determines that a Certificate of Public Convenience and Necessity should be granted to Intrado to provide competitive intrastate resold and facilities-based non-rural local exchange service in South Carolina. The terms of the Stipulation between Intrado and SCTC are approved, and adopted as a part of this Order. Any proposal to provide such service to rural service areas is subject to the terms of the Stipulation. In addition, Intrado is granted authority to provide intrastate interLATA interexchange service and to originate and terminate toll

traffic within the same LATA, as set forth herein, on a facilities-basis and through the resale of intrastate services authorized for resale by tariffs of carriers approved by the Commission.

2. Intrado shall file, prior to offering local exchange services in South Carolina, its final tariff of its local service offerings conforming to all matters discussed with Staff and comporting with South Carolina law in all matters. Intrado's local telecommunications services shall be regulated in accordance with the principles and procedures established for flexible regulation first granted to NewSouth Communications by Order No. 98-165 in Docket No. 97-467-C. Specifically, the Commission adopts for Intrado's competitive intrastate local exchange services a rate structure incorporating maximum rate levels with the flexibility for adjustment below the maximum rate levels that will have been previously approved by the Commission. Further, Intrado's local exchange service tariff filings are presumed valid upon filing, subject to the Commission's right within thirty (30) days to institute an investigation of the tariff filing, in which case the tariff filing would be suspended pending further Order of the Commission. Further, any such tariff filings will be subject to the same monitoring process as similarly situated competitive local exchange carriers.

3. The Commission adopts a rate design for the long distance services of Intrado which are consistent with the principles and procedures established for alternative regulation of business service offerings set out in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C.

Under the Commission approved alternative regulation, the business service offerings of Intrado including consumer card services, and operator services, are subject to a relaxed regulatory scheme identical to that granted to AT&T Communications in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C. Under this relaxed regulatory scheme, tariff filings for business services shall be presumed valid upon filing. The Commission will have seven (7) days in which to institute an investigation of any tariff filing. If the Commission institutes an investigation of a particular tariff filing within the seven days, the tariff filing will then be suspended until further Order of the Commission. Any relaxation in the future reporting requirements that may be adopted for AT&T shall apply to Intrado also.

4. With regard to the interexchange residential service offerings of Intrado, the Commission adopts a rate design which includes only maximum rate levels for each tariff charge. A rate structure incorporating maximum rate levels has been previously adopted by the Commission. In Re: Application of GTE Sprint Communications Corporation, etc., Order No. 84-622, issued in Docket No. 84-10-C (August 2, 1984).

5. Intrado shall not adjust its interexchange residential rates below the approved maximum level without notice to the Commission and to the public. Intrado shall file its proposed rate changes, publish its notice of such changes, and file affidavits of publication with the Commission two weeks prior to the effective date of the changes. However, the public notice requirement is waived, and therefore not required, for reductions below the maximum cap in instances which do not affect the general body of subscribers or do not constitute a general rate reduction. In Re: Application of GTE

Sprint Communications, etc., Order No. 93-638, issued in Docket No. 84-10-C (July 16, 1993). Any proposed increase in the maximum rate level for interexchange residential services reflected in the tariff which would be applicable to the general body of the Company's subscribers shall constitute a general ratemaking proceeding and will be treated in accordance with the notice and hearing provisions of S.C. Code Ann. §58-9-540 (Supp. 1999).

6. If it has not already done so by the date of issuance of this Order, Intrado shall file its revised maximum long distance tariff and an accompanying price list within thirty (30) days of receipt of this Order. The revised tariff shall be consistent with the findings of this Order and shall be consistent with the Commission's Rules and Regulations.

7. Intrado is subject to access charges pursuant to Commission Order No. 86-584 in which the Commission determined that for access purposes resellers should be treated similarly to facilities-based interexchange carriers.

8. With regard to the Company's resale interexchange service, an end-user should be able to access another interexchange carrier or operator service provider if the end-user so desires.

9. Intrado shall resell the services of only those interexchange carriers or LECs authorized to do business in South Carolina by this Commission. If Intrado changes underlying carriers, it shall notify the Commission in writing.

10. With regard to the origination and termination of toll calls within the same LATA, Intrado shall comply with the terms of Order No. 93-462, Order Approving

Stipulation and Agreement, in Docket Nos. 92-182-C, 92-183-C, and 92-200-C (June 3, 1993), with the exception of the 10-XXX intraLATA dialing requirement, which has been rendered obsolete by the toll dialing parity rules established by the Federal Communications Commission, pursuant to the Telecommunications Act of 1996 (See, 47 CFR 51.209).

11. Intrado shall file surveillance reports on a calendar or fiscal year basis with the Commission as required by Order No. 88-178 in Docket No. 87-483-C. The proper form for these reports can be found at the Commission's website at www.psc.state.sc.us/forms. The title of the forms which the Company shall utilize to file annual surveillance reports with the Commission is "Annual Information on South Carolina Operations for Interexchange Companies and AOS".

12. The Company shall, in compliance with Commission regulations, designate and maintain an authorized utility representative who is prepared to discuss, on a regulatory level, customer relations (complaint) matters, engineering operations, tests and repairs. In addition, the Company shall provide to the Commission in writing the name of the authorized representative to be contacted in connection with general management duties as well as emergencies which occur during non-office hours.

Intrado shall file the names, addresses and telephone numbers of these representatives with the Commission within thirty (30) days of receipt of this Order. The Company shall utilize the "Authorized Utility Representative Information" form which can be located at the Commission's website at www.psc.state.sc.us/forms to file the

names of these representatives with the Commission. Further, the Company shall promptly notify the Commission in writing if the representatives are replaced.

13. Intrado shall conduct its business in compliance with Commission decisions and Orders, both past and future, including but not limited to, any and all Commission decisions which may be rendered in Docket No. 96-018-C regarding local competition.

14. The Company also requests a waiver 26 S.C. Code Ann. Regs. 103-631 (Supp. 2000). We grant the Company's request for a waiver of 26 S.C. Code Ann. Regs. 103-631 (Supp. 2000). We also grant the Company's request to maintain its books in accordance with Generally Accepted Accounting Principles. However, the Company is directed to comply with all Rules and Regulations of the Commission, unless a regulation is specifically waived by the Commission.

15. To the extent that Intrado provides basic local exchange service, Title 23, Chapter 47, South Carolina Code of Laws Ann., governs the establishment and implementation of a "Public Safety Communications Center," which is more commonly known as a "911 system" or "911 service." Services available through a 911 system include law enforcement, fire, and emergency medical services. In recognition of the necessity of quality 911 services being provided to the citizens of South Carolina, the Commission hereby instructs Intrado to contact the appropriate authorities regarding 911 service in the counties and cities where the Company will be operating. Contact with the appropriate authorities is to be made before beginning telephone service in South Carolina. Accompanying this Order is an information packet from the South Carolina

Chapter of the National Emergency Number Association (“SC NENA”) with contact information and sample forms. The Company may also obtain information by contacting the E911 Coordinator at the Office of Information Resources of the South Carolina Budget and Control Board. By this Order and prior to providing services within South Carolina, Intrado shall contact the 911 Coordinator in each county, as well as the 911 Coordinator in each city where the city has its own 911 system, and shall provide information regarding the Company’s operations as required by the 911 system.

16. Intrado shall file annual financial information in the form of annual reports and gross receipts reports as required by the Commission. The annual report and the gross receipt report will necessitate the filing of intrastate information. Therefore, Intrado shall keep financial records on an intrastate basis for South Carolina to comply with the annual report and gross receipts filings. The “Annual Report for Competitive Local Exchange Carriers” form can be located at the Commission’s website at www.psc.state.sc.us/forms. This form shall be utilized by the Company to file annual financial information with the Commission.

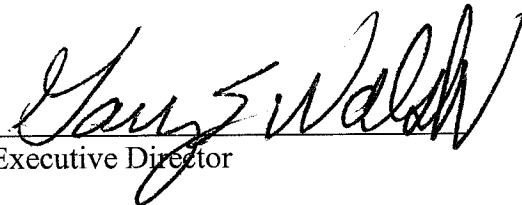

17. Based on the above Findings of Fact, the Commission hereby determines that the Application filed by Intrado requesting Commission approval of the transfer to Intrado, SCC’s Certificate of Public Convenience and Necessity to provide Local Exchange Service and Intrastate Interexchange Services in South Carolina is hereby approved.

18. This Order shall remain in full force and effect until further Order of the Commission.

filed 10/1/01

Docket No. 2001-339-C

Re: Application of Intrado Communications, Inc.)
for a Certificate of Public Convenience and)
Necessity to Provide Local Exchange and)
Interexchange Telecommunications Services)
in the State of South Carolina)
_____)

**AMENDED
STIPULATION**

The South Carolina Telephone Coalition ("SCTC") (see attachment "A" for list of companies) and Intrado Communications, Inc. ("Intrado") hereby enter into the following stipulations. As a consequence of these stipulations and conditions, SCTC does not oppose Intrado's Application. SCTC and Intrado stipulate and agree as follows:

1. SCTC does not oppose the granting of a statewide Certificate of Public Convenience and Necessity to SCC, provided the South Carolina Public Service Commission ("Commission") makes the necessary findings to justify granting of such a certificate, and provided the conditions contained within this stipulation are met.
2. Intrado stipulates and agrees that any Certificate which may be granted with respect to local exchange service will authorize Intrado to provide such service only to customers located in non-rural local exchange company ("LEC") service areas of South Carolina, except as provided herein.
3. Nothing in this stipulation would prohibit Intrado from transporting calls to a 911 Public Safety Answering Point (PSAP) on behalf of another carrier, a telematics service provider, or a Private Switch ALI customer.

4. Intrado stipulates that it is not asking the Commission to make a finding at this time regarding whether competition is in the public interest for rural areas.

5. Intrado stipulates and agrees that it will not provide any local service, by its own facilities or otherwise, to any customer located in a rural incumbent LEC's service area, unless and until Intrado provides such rural incumbent LEC and the Commission with written notice of its intent to do so at least thirty (30) days prior to the date of the intended service. During such notice period, the rural incumbent LEC will have the opportunity to petition the Commission to exercise all rights afforded it under Federal and State law. Also, Intrado acknowledges that the Commission may suspend the intended date for service in rural LEC territory for ninety (90) days while the Commission conducts any proceeding incident to the Petition or upon the Commission's own Motion, provided that the Commission can further suspend the implementation date upon showing of good cause.

6. Intrado stipulates and agrees that, if Intrado gives notice that it intends to serve a customer located in a rural incumbent LEC's service area, and either (a) the Commission receives a Petition from the rural incumbent LEC to exercise its rights under Federal or State law within such 30-day period, or (b) the Commission institutes a proceeding of its own, then Intrado will not provide service to any customer located within the service area in question without prior and further Commission approval.

7. Intrado acknowledges that any right which it may have or acquire to serve a rural telephone company service area in South Carolina is subject to the conditions contained herein, and to any future policies, procedures, and guidelines relevant to such proposed service which the Commission may implement, so long as such policies, procedures, and guidelines do not conflict with Federal or State law.

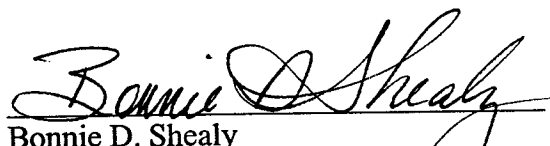

8. The parties stipulate and agree that all rights under Federal and State law are reserved to the rural incumbent LECs and Intrado, and this Stipulation in no way suspends or adversely affects such rights, including any exemptions, suspensions, or modifications to which they may be entitled.

9. Intrado agrees to abide by all State and Federal laws and to participate, to the extent it may be required to do so by the Commission, in the support of universally available telephone service at affordable rates.

10. Intrado hereby amends its application and its prefiled testimony in this docket to the extent necessary to conform with this Stipulation.

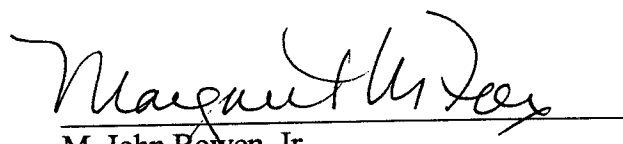

AGREED AND STIPULATED to this 26th day of September, 2001.
